回答问

Proton Gen 2 1.6 GL, 2005. One owner and 138 574 km odometer reading. Engine has just been fitted with new parts and in good running condition; Body in good condition; Leather interior; Has been fitted with a new computer box. Car needs battery, check electric connections and key reprogramming to start and go, or you can use for spares if you want. Owner wants to clear space. It is a bargain not to be.
