Hi Guys,

I am selling a rare 1981 Suzuki GS750G Model. This is a shaft driven model that was only produced in small numbers in Japan and Japan only. There are other models that made it to S.A. but those were in chain drive. This bike is very sought after over seas especially the USA and UK, selling price vary but are \$10,000+- So I am selling on over sea websites for export.

The bike I was using everyday and there is nothing wrong with the motor at all, no noises, no knocking, and the rings are still good.

There are some minor cosmetic things that needs to be done. Shaft seal is beginning to leak a bit as well as one fork seal. Tank is a bit rusted on the inside but has been cleaned, so in the near future it needs to be replaced. The nice thing is what ever parts you need or want to replace you can find it with all the other larger CC models eg: 850 1000, so itâ€™s not difficult to find parts for it.

Do some research on this exact model!

serious buyers only. No Time Wasters R17,500 or neare offer.
