

2010 lexus RX 450h for sale (199000 R)

Location **Gauteng, Johannesburg** https://www.freeadsz.co.za/x-232111-z

Before you purchase a used lexus 450H just remember it will need the Hybrid battery change at 195000km(+-R80000) whether it's working or not,so on this one the Lexus=Midrand changed it already,what an advantage. to confirm what i just declare now take the number plate and call any Lexus agent to double check. this is a V6 power vehicle but with a fuel consumption(hybrid car) of a vw golf or jetta...the cheapest in the country for just R199000. full service,2 keys,spare tyre, contact
