The KTM 1050 Adventure is made for the same adventure as its bigger sisters; the KTM 1190 Adventure, KTM Adventure R 1190 and KTM 1290 Super Adventure. A little smaller, lighter and with lower fuel consumption, the 1050 Adventure stands proudly alongside its larger siblings. It is a supremely competent and well equipped motorcycle at an attractive price. Traction control with different modes and ABS come as standard. The engine is built with the same state-of-the art technology as the 1190 engine and even though the engine is a little smaller, it delivers nearly the same power and torque up to 95 hp (70 kW). In addition it is A2 license compatible. It represents the easy entry into the world of KTM travel enduros. The chassis combines lightness with outstanding geometry and well-balanced suspension, which, together with the prize-winning Tourance Next tyres from Metzeler, allows undreamed of riding enjoyment in all conditions and at whatever speed you desire, from very relaxed to very, very.
