Here we have a less than a year old Phantom 4 Pro + Drone, this model comes with the screen attached to the controller so no need to have a seperate tablet.

Perfect working order, done about 20 flights all commercially.

Just doesnt get used as much as our Inspire 1 Pro so not worth keeping it.

Comes boxed with : -

- Phantom 4 Pro+ Drone
- 2 Batteries (1 High Capacity and 1 normal) Both batteries give over 25 minutes of flight time (in optimal conditions ie no wind)
- Controller & Screen Attached
- Extra set of props never been opened
- Landing gear risers (used once)
- Charging station (to charge 3 batteries 1 after each other to save having to change batteries to charge)
- Rucksack (The foam section that the drone etc sits in then goes inside this rucksack making it easier to carry)

All boxed complete with everything (boxes not picture)
