H1 SMART SPORTS WATCH

The H1 Smart Sports Watch is a beautiful fitness tracker that supports you in meeting your daily exercise needs. Thanks to its sedentary reminder, you'll never miss out on a workout session again. Your Bluetooth watch comes with a pedometer that keeps accurate track of the distance you cover each day.

Additionally, it counts the steps you take and calories you have burned. When used with the dedicated mobile application, you'll know you won't be tired over a workout or late in the office. This will help you to focus on moving and meet those future fitness goals.

When synchronized with your iOS or Android phone through Bluetooth, this smart watch delivers call and message reminders. Thanks to this, you'll always be aware when somebody is trying to contact you.

Even when you don't have your smartphone at hand. This means that you'll never miss out on an important call or SMS again.

The watch itself features a stylish design and comes with a removable leather strap. Within its strap, your watch holds a second miniature digital display on which it displays the time, date, and more. With its 30mAh battery, your smart watch can last for up to 7 days on one charge. Thanks to its beautiful look,
