

Prius Hybrid HV Battery Repairs Cell Replacemen (5000 R)

Location **Gauteng, Pretoria**
<https://www.freeadsz.co.za/x-24175-z>

Hi There, thanks for stopping by !

I am a technician that can repair the Hybrid H/V Battery for your car.

Are your local dealer charging you R20,000 for replacement of the faulty Hybrid Battery ??

Bare in mind this cost is excluding the ECU and Labour. I was also charged R33,000 by my local dealer too. So I know the frustration you are going through. Unfortunately they also offered R10,000 to buy my faulty Prius. Ridiculous right ?

I can save you the trouble. I can repair the Hybrid H/V Battery myself. I am based in Centurion, Pretoria.

I will need the car +-2 days and the deposit of R2,500. The total amount will depend on the number of faulty cells in your Prius H/V Batter Pack. Usually only replacement of one cell is needed to get you back on the road. Remember I am not a Business, I do repairs from home as a hobby.

My charges total R5,000 and includes one cell replacement, testing of all cells and labour. I am only one person and it is quite a bit of work to disassemble and uninstall, test aswell as reassemble and reinstall and this takes time.

As an alternative, if you want to, you can bring me the faulty Battery Pack and I will test and fix it for R2,500. This includes 1 faulty cell, then I will R10,000 per hour that needs a document and a receipt. One day you can drop off the battery pack in the morning and collect it after the repair. I will need a deposit of R2,500 to start the repair and the balance to collect it. More than 5x Cells in the battery pack gets too costly so I will only charge R10,000 for replacement of more than 5x Cells and Labour.

We can also make arrangements if i need to travel around South Africa in order for me to help and get you back on the road. I am also willing to sell stand alone cells at R2,000 each.

Please e-mail or WhatsApp me at the supplied details.
