

Prius Hybrid HV Battery Repairs Cell Replacement (5000 R)

Location **Gauteng, Pretoria**
<https://www.freeadsz.co.za/x-24175-z>

Hi There, thanks for stopping by !

I am a technician that can repair the Hybrid H/V Battery for your car.

Are your local dealer charging you R20,000 for replacement of the faulty Hybrid Battery ??

Bare in mind this cost is excluding the ECU and Labour. I was also charged R33,000 by my local dealer too. So I know the frustration you are going through. Unfortunately they also offered R10,000 to buy my faulty Prius. Ridiculous right ?

I can save you the trouble. I can repair the Hybrid H/V Battery myself. I am based in Centurion, Pretoria.

I will need the car +-2 days and the deposit of R2,500. The total amount will depend on the number of faulty cells in your Prius H/V Batter Pack. Usually only replacement of one cell is needed to get you back on the road. Remember I am not a Business, I do repairs from home as a hobby.

My charges total R5,000 and includes one cell replacement, testing of all cells and labour. I am only one person and it is quite a bit of work to disassemble and uninstall, test aswell as reassemble and reinstall and this takes time.

As an alternative, if you want to, you can bring me the faulty Battery Pack and I will test and fix it for you. It will include labour, cell, the cost of £2000 per cell, that needs replacement and may be done the same day. You can drop off the faulty pack in the morning and collect it in the afternoon. I will charge £10 deposit to help to start the job and the rest will be collected when I am 5x Cell away. If the cell gets too noisy I will only charge £10,000 for replacement of the faulty Cell and labour.
