I'm selling an almost new Sinotec 29inch Hd Ready led Tv and it still has plastic covering it(Had it for 6 months or more) it has 2 usb slots(but they don't support ext hdd movie playback) it looks brilliant on close range or at a bedroom but it its not that bad on long range too, I used this led Tv to play my video games(on a playstation console) and it works brilliant... however I moved to a larger room, so the open space makes it look "different" hence I need a bigger led Tv the price*R1800* is negotiable if u can give me a reasonable offer i might consider it please I dont want any scammers or people that pay by eft I need cash hand in
