 To visualise the efficiency of these blades, you need to imagine the specific use for each of these.

The thirty degree cutting blade is great to use while working with artworks that are small in size and have complex lines. If the material is within 0.5 mm then these blades are an awesome choice as well.
 Forty five degree cutting blades are mostly utilised for cutting normal materials which are within the limit of 1mm. If you have to cut normal font sizes, then this can be made use of.
 If you want to cut out large fonts printed on tough materials within the limit of 1mm, then you need to use the sixty degree cutting blade. This includes sandblasting and fluorescent vinyl.
 We are only allowed to put very little words in this ad. These are only some of the highlights of our products. If you like to get more info please read our detailed product page:
[#](http://am.co.za/plotter/blade)
 . Please keep in mind that all our products come with a strong technical support and/or service maintenance plan. In case you have more queries feel free to contact on 0724636321.

If you need to know about the pace that keeps the wear and tear of the blade to an optimum level, you can go to [#](http://am.co.za/plotter/blade), where you can get a glimpse of the size of the artwork and the

speed to cut the that certain artwork. We make certain that these blades are offered at an affordable price. Usually, the blades last for two to three months. When employed on the normal materials, you can get the price of these blades as low as the V.A. blades. When on the more difficult materials, the blades last for a longer time. Along with the code that you can use to get the price of the blades, a complete price list of the blades is also available on our website and you are welcome to browse through this information.

Apart from selling these blades, we are also stock all of the blades. To know more about these products please check our site [#](http://am.co.za/plotter/blade) and read through all its features and specifications. In case you have any question please leave us a message or Call at 0724636321 to answer your questions. We guarantee that our product will prove
