MC67NA-PDABAA00300

Give your field workforce the tools they need to work faster and smarter with the rugged 4G HSPA+ MC67. This fully featured powerhouse of a device lets workers access information in your backend system: scan practically any bar code in almost any condition; capture documents to simplify recordkeeping; take and send video and photos for real-time repair support; and call a customer with an arrival window. All at 4G HSPA+ speed. With the MC67 dual wireless WAN modem configuration, you can choose the cellular network that will provide each worker with the best coverage, 4G GSM or 3.5G CDMA* or both. The software-configurable cellular radios can be activated and reactivated on different networks on the.
