

# WIRELESS PRESENTER FOR IPHONE - AIR MOUSE 30M RANGE PLUG AND PLAY - A146

Location **Gauteng, Johannesburg**  
<https://www.freeadsz.co.za/x-28192-z>

Turn your iPhone 4 or iPhone 5 into a wireless presenter and get rid of those annoying cables!

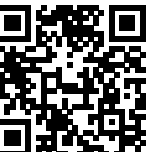

Have full control over your PowerPoint presentations while walking around in the room. And best of all, you don't need to carry an extra bulky device with you. Just plug the small transmitter in your iPhone's Audio jack and the receiver in your pc's USB port and you're ready to go!

Download the dedicated "iAMP" app from the Appstore and you will be able to switch to the next slide, control the volume, all from a touch of the screen on your iPhone. You will also be able to use your iPhone 5 as an Air Mouse thus controlling your cursor straight from your phone.

And never run out of time again during a presentation using the help of the timer function. The App will also allow you to wirelessly control your Multimedia and Video programs.

At a Glance...

- Air mouse function
- Net searching control
- Media player control
- PPT presentation control
- PC volume control
