This is a SAAB 932 OLT TURBO
 The car has been owned by the owner for 10 years. The car has been in Gauteng since 2012. One of the reasons for the 10 years of use is that the car is very clean. It is always parked in a garage, so the car has never been outside, even though it is red. The car is in perfect condition, and all the panels line up 100 percent. It is an automatic which if driven in eco mode, is very fuel efficient and fast. If you switch over to sport mode, which is a touch of the button the car becomes super fast. Everything works on the car, even the small stuff like the light up mirrors, on the sun shade. It is really a beautiful car to drive and it goes super smooth.
