My family and I had everything we wished for, and life was good but due to jealousy my husband's family hated me. In fact, he later left me and the kids for another woman and asked for divorce. It was so painful. My kids and I suffered during this time. I visited church priests for help and all they did was to console me. I visited healers with no luck. I wasted a lot of money with no results. Luckily a caring dear friend took me to see Prof mama who had saved her marriage and whom he continues to consult up to today. I paid a R200 consultation fee, and she accurately read my fortune and told me about all my problems without me saying a word. He used a mirror to show me real faces of people who were trying to pull me down. He performed special prayers for me, cleansed me from spells and bad luck. 3 months after these ceremonies, my husband came back home asking for forgiveness from me and our kids. We are now very happy, and my husband's family have recently apologized for the problems they have put me through. All thanks to Mama Though you may not fully understand now, the desire in you is the invisible guide that with belief will lead you to joy, success, and life of abundance.
