If your erection is not as hard as you would like or you are experiencing Premature Ejaculation, you may find this medicine useful. But first hear what my clients say; at around the age of 22 I began to experience premature ejaculation. This problem haunted me and my sexual ego for years. After a while, I began to avoid having sex altogether. My ego had gotten too involved and i didn't want to be a big disappointment to another beautiful woman.
