OUR PILLS ARE SAFE AND EFFECTIVE IN JUST ONE DAY

There are two types of Abortions

- Medical Abortion
- Surgical Abortion

But at our Safe abortion clinics, we specialize in Medical Abortions with the help of Abortion / termination Pills.

WHAT IS MEDICAL ABORTION?

Medical abortion is a term applied to an abortion brought about by medication taken to induce it or terminate it. This can be accomplished with a variety of medications given either as a single pill or a series of pills.

Medical abortion is a way to end or terminate a pregnancy using Abortion Pills. It is done with the help of medicine from 4 weeks up to 20 weeks in special cases from the first day of the last period.

PROVIDERS:-

Providers of abortions are generally specialists in women's health such as obstetricians, doctors, nurses and gynaecologists.

WHO CAN CHOOSE TO DO A MEDICAL ABORTION?

You must be 18 years old and above to come to a Safe Abortion Clinic.

You may choose to do an abortion if you are less than 28 weeks pregnant from the first day of your last period.

However an Abortion is performed if approved by a medical practitioner under the following conditions i.e.

- The pregnancy may be a risk to the mother's physical and mental health.
- The pregnancy may be a risk to the mother's physical and mental health.
- The pregnancy may be a risk to the mother's physical and mental health.

Unwanted pregnancy can be a daunting prospect for many women and teen girls especially without

appropriate financial or social support, therefore, choosing the correct Abortion method is essential
