Medical Abortion

Whatever your circumstances, it's your right to terminate up to 24 weeks into the pregnancy. We've operated in Gauteng for more than a decade, and have helped thousands of people like you to live healthier, happier lives. It's entirely your decision, and if it's something you want to do, rest assured that it's legal in South Africa to have an abortion. Everyone is different, and every situation is different. We provide a safe space for pregnant women to explore their options and make informed decisions about their pregnancy.

WHAT IS MEDICAL ABORTION 071 785 2514

A medical abortion is effective with a success rate of 99% meaning most of the women who terminate the pregnancy in the first weeks of the pregnancy have no side effects and heal very well. 071 785 2514

we will schedule a follow-up appointment with you or encourage you to see your primary doctor after your abortion. It is important to keep your follow-up appointment in order to help prevent possible infections. Your doctor will give you instructions on how to care for yourself after your abortion. Be sure that you carefully follow your doctor's instructions. Your period should return for some days after the abortion, and be aware that you can get pregnant again soon after the abortion. Abortions are safe as long as they are performed by a legal professional and Registered Abortion clinic. 071 785 2514

After Your Medical Abortion

Post-abortion bleeding and cramping varies from person to person. You may bleed for two days to 4 weeks or have no bleeding at all. For many people, the bleeding stops and starts sporadically. There may be spotting until your next
