I advise my readers against casting any love spell to make him come back at home because the odds are it'll fail. Moreover, home magic will damage the item left by the man and make it impossible for a more skilled spellcaster to use it in his spells. As a result, getting your ex to come back will become more challenging. Of course, 90% of success is the spellcaster's inner strength. Nevertheless, access to an item that belonged to the target can significantly improve or speed up the results.

There are some major factors impacting the final result of an occult project. These include the spell caster's access to:

- The target's personal things;
- His jewelry;
- His lighter (if the target is a smoker);
- His photos;
- His handwritten notes and letters to the client;
- His nails, hair, used tissues/wipes;
- His gifts;
- If he's a collector, his collection;
- Something he's made with his own hands, such as a toy, a painting, a piece of furniture, etc.
- Bed sheets which still smell like him;
- His toothbrush, hair brush, etc.;
- Even his cigarette butts which can help make a love spell more effective.

The less he left behind, the harder and the longer it will take a proven spellcaster to restore your relationship with this person. Also, don't forget that more complex and time-consuming rituals are more expensive than simple ones.

Getting an ex back is never easy. When I, spellcaster Papa Omar, take on a project like this, I always need to know what caused the breakup. I count on you, my client, to tell me about what happened and why your love faded. Usually I also do a special screening in order to find out who left you and why.

A bring my love back to me spell will have a strong effect only if the reason the couple split up has been eliminated. Imagine there is a monster in a room. You're afraid of it and you don't want to see it and do everything you can to avoid entering the room. Then you find a spell caster who promises to help you overcome your fears. He keeps his promise and you walk into the room having no fear in your heart. What do you feel upon entry? Best-case scenario, you feel uncomfortable. Why? Because the monster is

People who order a love spell to bring her back don't realize that they are the monster. They are the reason their loved ones don't want to come back. So, first and foremost they need to tame that monster and make it kinder, nicer, friendlier and more lovable.

If the reason your significant other left you is you, you should restore your relationship by improving yourself. I have multiple techniques to help any man or woman become a better and more likable version of themselves, improve their looks, make them smarter, more charismatic, etc. This will ensure their future success and make their ex come back and never want to leave again.
