Bluetooth Tracker, Child, Bag, Wallet, Key, Pet, Smart Finder Mini GPS Locator Alarm
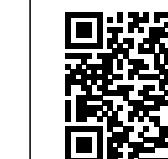

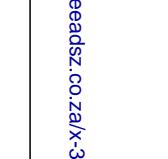

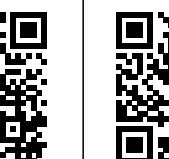

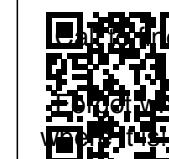

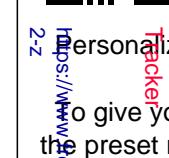

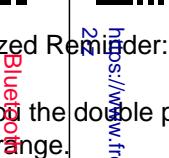

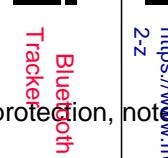

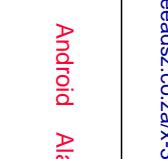

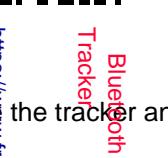

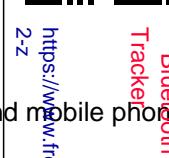

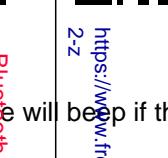

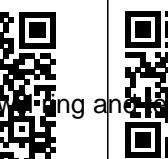

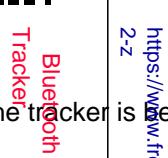

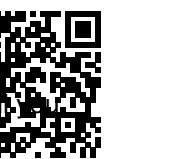

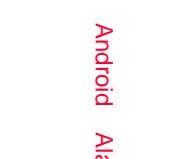

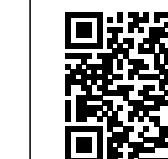

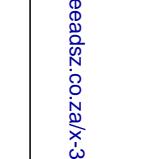

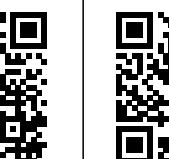

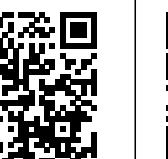

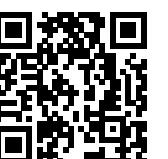

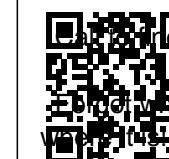

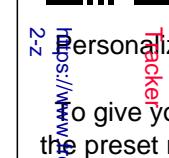

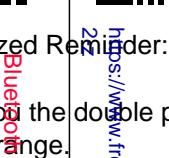

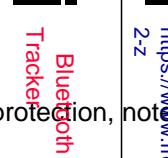

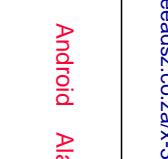

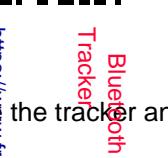

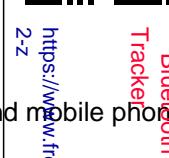

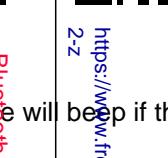

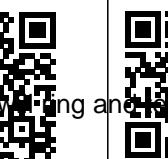

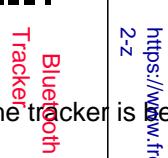

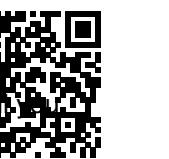

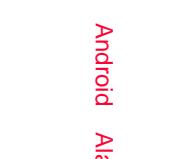

Application:

The main function is anti-theft or anti loss for your items.

1. Find keys, bags and other valuable items & a missing reminder.

2. Run App in IOS5 or Android 4.3 or newer, the device will beep till you find the lost item after you touch the find me icon in service ready status.

3. Put the device in your bag, when the mobile phone and bag move out of a specified range, both the mobile phone and the device will beep to alert you. Mobile phones can have different sounds and vibrations to remind you.

Find your lost items:

How many times have you spent precious time looking for your phone, wallet, bag or your pet, yet they are all so easy to misplace. Open the APP on your phone and "call" the tracker to flash or alarm, you can easily find them.

Call phone:

Forgot where you put your phone? But you only press operation, the phone will ring and so you will find it!

Personalized Reminder:

To give you the double protection, note the tracker and mobile phone will beep if the tracker is beyond the preset range.

Connection Remind:

When the mobile phone reconnects with the tracker, the phone will beep. When you're waiting for your luggage in the airport, you can do anything you want while you're waiting once your luggage appears, your phone will notify you.

Location Record:

The app will record the location information and mark on the inbuilt map where the tracker disconnected with your phone just follow the location and find it back.

Help to find:

Lost the connection with your belongings? Don't worry our app will record the location, and all our app user scans functions will help to find it. When the user finds the missing item, the app will send the location.
