Recent developments in photographic, computer and printing technologies, along with the availability of low-cost equipment, have made the production of counterfeit money relatively easy.

We are different from every other company in that we produce super undetected counterfeit notes.

We use cutting-edge technology to produce the best counterfeit banknote and security paper for documents that convey value, identity and confidence.

With our advanced printing processes, managed services, and distinct focus on quality, we realize every currency as a unique, secure and cost-effective solution. Banknotes are a country's business card, and the design imperatives and their unique properties including color-shift, tactile, and interactive elements enable them to be authenticated and mechanically processed.+27833928661

Our Counterfeit Banknotes are produced using the best paper which is the Cotton Banknote Paper and Plastic Polymer
