Before you doubt this offer just go on the internet and see how many 1 TB memory sticks are out there, there are hundreds but notice not many of them are a USB 3.0 the problem is there are just none been sold into South Africa until now because we are. Im sure many companies are going to follow in our footsteps now but will they match our price and products? Just read below to see exactly what you are getting for R400.00 vat included.

How it works is, how do we sell a 1 TB memory stick for only R400.00 including vat

We go overseas once a month and fetches the stock. This means that we can only bring limited amounts of memory sticks. Because of the demand we have upped the amount from 100 to 200, because of this reason everyone who wants any memory sticks need to book otherwise when they get here they are all booked up. The stock will be arriving towards the end of this month February 2016. However the demand on this stick is unbelievable so we are waiting for final pricing on what it will cost to bring in a few hundred or thousand by shipment there might need to be a price increase but you are properly looking round about R30.00 or less added onto the price thatâ€™s all. If you would like to order, please let me know how many you need and give me your contact details, cellphone number and email address and I will send you an order form stating that you have book however many this is your guarantee that they are booked, then when the stock arrives I will contact you and you can pay when you collect it. We are based in Benoni Gauteng, however we do post and send with courier all over the country my boss does have contact and can arrange the courier for under cost price we will just need all your address / P.O.Box details to get you a price. Mar-Pro is vat registered is and a registered company that has been around since 1997 supplying products to the South African market with great success because of our dedication

~~in only supplying the best quality and most cost effective products~~

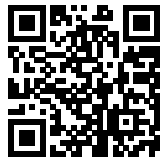

For more information on terms and conditions:

Once we have been informed that your 1 TB memory stick is here, we will have 72 hours to demand payment, when you collect it, or there is a 3rd party contact the police, else we have to file a police order. If you are based in India, we have a 72 hours return policy, for all other countries, we are happy. If however the 1 TB memory stick has been vandalised, dented, scratch or miss used in any way

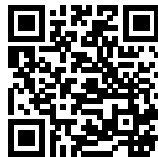

and not in its original packaging then we will not accept the return. All the 1 TB memory sticks are checked before leaving our premises. The cost of the 1 TB Kingston memory stick is R400.00 and included but all other costs excluded like delivery, export, engraving ect. If you are going to collect then please inform me as we are mostly out on the road and not at the office we are based in Benoni Gauteng. If we are to deliver to you please send us your fiscal or P.O. Box address on where you would like us to deliver ASAP so that we can find out the exact cost involved we can courier and post.
