VALIANT WHEEL PCD ADAPTERS AVAILABLE!!!

Valiant wheel pcd adapters from small bolt pattern to any other five hole PCD at R1000 per wheel.
 Includes the new studs and wheel nuts that you will need to fit any five hole rim to your Valiant big bolt pattern 114.3 or the small bolt pattern 101.6
 My aluminum adapter will bolt directly onto your disc or drum with your original Valiant wheel nuts. Then your mag wheel bolts onto my adapter. This is the safest way to fit a wide variety of wheels onto your Valiant.
 This adapter is also good for improving the offset or the track spacing of your Valiant wheels. The Valiant wheels normally sit too deep inside the wheel arch so you don't appreciate a wide mag when looking from the side. Valiant wheel spacer needed.

These wheel spacers add 20mm to 30mm outward and helping your wheels fill the fenders nicely.
 Valiant PCD adapter 101.6mm to 114.3mm to fit any Valiant wheel.
