proven otherwise. This is why we can offer our support without any reservations. And that brings us to the prime directive of this service - Case dismissed.

Often the legal system does not serve due justice. To them, you're guilty until proven innocent. They arrest first and let the courts sort it out later. And that process has put many innocent people in prison. The system is broken, and the judicial system has turned into a cash cow that's mainly interested in feeding the department of corrections.

Many go to prison due to False allegations, distorted accusations, and or have been falsely accused. Maybe you made a mistake yet deserve a second chance. Whichever way it is, our only goal is to be of help to those in need. As said about your innocent until the judiciary systems can convict you.

Here is what the bible says: "Settle matters quickly with your adversary who is taking you to court. Do it while you are still together on the way, or your adversary may hand you over to the judge, and the judge may hand you over to the officer, and you may be thrown into prison.

The bottom line, avoid going before the judge. So if the matter can't be settled, the next best step is to have the case dismissed. This powerful Spell has been successfully used in getting civil, criminal, and juvenile cases dismissed. It worked for others, and it can work for you too.
