Selling my brand new Car Diagnostic unit X431 5C full system, my unit is only one month old. I sold my business and kept this unit out. No use for it now. This unit can work on most cars in south Africa and can do everything from code reading, fault reading, clearing, airbags resetting, abs resetting, service lights disables and much more. The unit is also Bluetooth and wireless and no need for wires between unit and car. selling the complete unit for only R18000 I paid over R25000 I am based in Pretoria. this is an ideal business opportunity package, you can start earning between R450 - R650 per hour and you need no experience.
