Best Way to Clean a Dog Pee Stain

You must thoroughly clean areas where your dog has peed in the past and completely remove the scent to discourage your dog from re-offending in the same place. Use Vibriozyme to Neutralise odours and to Control Pathogens that cause disease. Effectively clean the affected area to not only remove the smell, but also remove the underlying, root problem.

Avoid using ammonia based products to clean dog urine. One of the ingredients of dog urine is ammonia and he may well be encouraged to re-offend in the same area. Remember, your dog's sense of smell is a hundred times better than yours.

1. Wee Off
 2. Pee Off
 3. EISH
 4. Urine

Place your order with the following Extreme Industrial Suppliers and Hygiene branches:
