

# Stone Cut Services

Location

**Gauteng, Pretoria**<https://www.freeadsz.co.za/x-52290-z>

Dear Client,

Manufacturing with pre-cut and pre-manufactured wood panels and components, is not a new concept to the Kitchen manufacturing industry. StoneCut Services is now offering a similar service on kitchen Granite tops.

Maximize the profit margins on your hard earned sale, by ordering your kitchen tops, custom made to your specifications.

Due to a slow economy and a very unique dynamic that developed in the stone cutting industry in South Africa, too many manufacturers were forced to revert to free hand cutting and sub-standard manufacturing techniques, because it is simply too expensive to build and maintain a decent stone shaping workshop. Even the best designed and built kitchen, with the most expensive tops, will look sub-standard if the tops are poorly shaped and finished.

Our workshop in Pretoria East is purpose built to handle, cut, polish and shape stone tops. It is equipped with precision diamond cutting and shaping tools. We proud ourselves in the cost effective ways we have developed, to deliver precision made products, at the lowest possible cost. Our skilled stone masons use highly accurate guided tools and wet cutting and polishing techniques, to ensure you get that top quality product, at a most competitive price.

We manufacture according to your specification, from slabs provided by yourself. All you have to do is to deliver, collect and pay. We will happily collect your slabs on your behalf.

We offer a free quote, now contact us, we can offer you a service.
