So this car was driven by my wife for school runs ,grocery shopping etc. The exterior and interior were well cared for and are in immaculate condition. Fuel consumption on average is +- 8l/100km , which in this case was driven mostly in traffic. The rear seats were hardly used so they look and feel new.The car is dependable and reliable, e90's in general don't have many flaws that would develop with high mileage.The seats are comfortable for long trips. During the period of ownership I have not experienced anything untoward regarding the reliability of the vehicle.
