

BOLP lights on (2000 R)

Location **Gauteng, Pretoria**
<https://www.freeadsz.co.za/x-57195-z>

Tired of load shedding or even power failures during the evening?

We have a answer for you..

BOLP lights on!

What is the product offered?

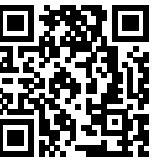

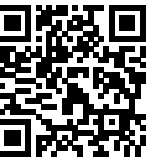

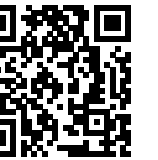

BOLP is a newly designed light producing device which switches on automatically when the power goes off, like for instance in a situation of load shedding. BOLP is fitted with a day/night sensor to insure no battery life is wasted during the day and the light goes on in dark areas. The unit is purchased directly from the manufacturer whom is also the designer, and it comes standard with two aluminium LED light strips. (Additional lights to be purchased extra)

BOLP is the ONLY light system that is SABS approved and had over 300 tests done through CSIR to ensure efficiency in our expected living standards.

Feel free to contact us for more information or you can even visit our website.
