This unit is used, but works perfectly and comes with its manual. We took it out of our system because I preferred to use normal granular chlorine. This is the Ei MIDI, suitable for pools of 80,000 litres and smaller. According to my research, recommended retail is between R9,450 and R10,230.

From the manufacturer : The Zodiac Ei Series represents a revolution in salt chlorination and boasts the latest in cutting edge technology. The system is ultra-compact and its ingenious design makes for quick and easy installation in less than 15 minutes!
