BMW Z3 M coupe 2000 model. Silver with black grey interior. 19" bmw mags, but have the original wheels.

She is not running. Starts but there is something wrong with the motor, we think its a head gasket but could be anything. We had sold the car with about 10000 km on a completely rebuilt motor, but it seems they ran the vehicle without water and definitely didn't look after her and the result is a possibly damaged motor.

We originally purchased the car about 10 years ago and it was a built up vehicle. After much research it turns out the car had a front right side collision, and because it was still new and no parts were readily available in SA at the time it was written off. So the papers say built up. But was just repaired.

They are extremely scarce and very collectible.

Please call Ian on 0824440969 to view. All papers and license up to date.

PLEASE NOTE. She is not running and you welcome to inspect and bring any mechanic with to check it out, it may be something small. Sold as is.

Vehicle is in Hatfield
