I am looking for the person like myself that has Jetski Yamaha wave rider or seadoo on a trailer that runs properly, that does not use it anymore to swap for 660 Raptor 2002 including Natis Docs, tyres are still good including the trailer, that is in good condition but never gets ridden & a registered double quad trailer in good condition except the paint work & box due to standing for a while. included is the helmet, pants, shirts and size 10 off road.
