I am putting my 1998 Nissan Hardbody D/C fitted with a 4 Lt Lexus V8 conversion up for sale. Everything was professionally done on this vehicle as you can see on the attached photos. New Rims and 17" tyres, shocks, exhaust, radio and Sony Exploit split speaker system and newly rubberised bin. The vehicle was completely resprayed (But was never involved in an accident) I have all the photos to prove the whole process of rebuilding this bakkie to where it is at the moment. Vehicle has loads of power and was Dyno tuned for optimum fuel consumption (around 9 km)
