Hi, im selling my 1981 rx7. bought it as a project car, dont have time to finish it due to work taking me to kenya. ive got all the parts for the car just needs to be resprayed and assembled. has a original 13b rotary engine and 5 speed gearbox. ive got the intercooler and injectors and turbo manifold for running a turbo. comes with 3 carburators. spent R5200 on the interior to get the seats done. have all the windows and the pop up lights. car has a imported wide bodykit. stil has its original wheels. papers in order and up to date. great project no rust. everything just needs to be assembled. asking R35000 for everything. rare
