

Weather Proof Outdoor Dual PIR detector Motion Sensor with Pet-immune Function (

Sensor with True Motion

Location **Gauteng, Pretoria**
<https://www.freeadsz.co.za/x-96624-z>

DG-85 is a kind of PIR intrusion detector integrating the most advanced security technology. It adopts 2 dual PIR sensors with high accuracy, intelligent digital chip, advanced, of tware technology, which can help it to make an accurate judgment of true intruder or other interference that can cause wrong alarm. And it is with function of automatic memory of environmental change, which can avoid wrong alarm caused by hot & cold air, operation machine interference. It can prevent effectively the interference caused by a 25kg past or 10 cats, insect, mouse, birds etc. Its super filter can be used indoor and outdoor. This has clear various interference that common PIR detector can't overcome; and put an end to wrong alarm and miss alarm.

Specifications:

Input Voltage: 9 to 16V DC
Current Drain: 30mA 12V DC
Detecting Range: 11.6m * 11.6m
Detecting Angle: 90 degree
Alarm output: NC > 100MA/28V DC
Anti white light resistance: >20000LUX
Installation height: 2m to 2.7m
Tamper switch: NC. 100mA/20V DC
PIR Section: Lens Date

No. of curtain Beams $(11+11+9) \times 2 = 62$

increased for about 10 to 30 seconds

Figure 1: \log_{10} scale of the power spectrum of the $\text{H}\alpha$ emission line. The x-axis is the frequency in MHz, ranging from 10 to 1000. The y-axis is the power in dBm, ranging from -100 to 0. The plot shows a noisy signal with a prominent peak around 100 MHz.

Motion test: 0.2m/s -3.5m/s (0.6ft-11ft)
